

Meet with **health care professionals** who will discuss the physical effects of **trauma** on the body and the realities of a trauma **resuscitation**, **hospitalization**, and **rehabilitation**.

**“This program gave me chills”**

**“Every teen should be required to sit through this program”**

## THE CONSEQUENCES

A physician or trauma nurse presents information on the injuries that result from crashes.

Topics include risky driving behaviors, the physics of reaction and stopping times, current laws on junior drivers licenses and alternatives to peer-pressure related scenarios.

**For more information on our program please contact:**  
**Ray McLean 585-275-3805**  
**Ray\_McLean@urmc.rochester.edu**

## OUR GOAL

Through this program we hope that young drivers and passengers learn to **make smart choices** which can ultimately play a role in **preventing** future motor vehicle crashes

TRUTH &  
CONSEQUENCES

In this workshop we discuss **risky driving behaviors**, the **physics of reaction** and stopping times, **current laws** on junior drivers licenses and offer alternatives to many **peer-pressure** related scenarios.

## THE TRUTH

Motor vehicle crashes are the leading cause of death among 15 to 20 year olds. A traffic safety specialist presents six risky driving behaviors and how they lead to crashes.

## THIS PROGRAM WAS DEVELOPED WITH THE HELP OF THE FOLLOWING:

Kessler Trauma Center

Monroe County Office of Traffic of Safety

Injury Free Coalition for Kids

Allstate Foundation

## TRUTH & CONSEQUENCES

A program on how poor choices through **distraction** and inexperience can lead to **tragic outcomes**

Don't let your teens miss this program
