SHINE A GREEN LIGHT ON

National Injury Prevention Day November 18

The Lee County Trauma District and Golisano Children's Hospital of Southwest Florida are joining forces with Safe States and Safe Kids to promote injury prevention awareness on National Injury Prevention Day, November 18.

We are asking all businesses and government agencies to **shine green lights on their buildings, monuments, and thoroughfares** once the sun sets.

Lee Health's Injury Prevention Team will be sending practical tips throughout the day to multiple social media outlets for prevention education.

Find out more about shining YOUR green light on National Injury Prevention Awareness Day by going to www.injuryfree.org
